

Features:

This Flex ATX PSU has a real power rating of 180W (continuous). Due to its small dimensions it is ideally suited for Mini-ITX applications, even in industrial environments. The small 4x4cm fan has a double ball-bearing to extend its lifetime and it's located on the inner side to reduce the noise level.

Thanks to its high grade Japanese capacitors the FSP180-50LE is prepared to work 24x7, making it an ideal small PSU for industrial projects.

- Double ball bearing fan
- Flex ATX (40x80x150mm)
- Low ripple & noise
- Japanese capacitors
- Full Range & Active PFC
- Over voltage protection
